# INTERNATIONAL ADVANCED COURSES

## CANINE ARTHROSCOPY

with **Jean-Guillaume Grand**  
DVM, Diplomate ECVS

Held at the renowned School of Surgery in France, this course is designed for **ECVS residents and ECVS Diplomates** who want to refine their arthroscopic skills and deepen their understanding of indications, instrumentation, and **interventional procedures** for the shoulder, stifle, and elbow.

# Introduction & presentation.

## Master Veterinary Arthroscopy with Precision and Confidence

VELVET INNOVATIVE TECHNOLOGIES offers an intensive **2-3-day** training course dedicated to veterinary arthroscopy, an essential technique for **diagnosing** and effectively **treating** many joint pathologies.

## Objectives

**Immersive training** with cutting-edge **simulators** and high-end arthroscopic equipment

Practice on cadaveric models, under the supervision of **internationally recognized surgeons**

**Step-by-step** guidance to perfect your technique and decision-making

Focused clinical case studies in a **highly technical, controlled environment**

**Refine your technique.  
Elevate your precision.  
Redefine your surgical practice.**

# Get **BETTER** with **JEAN- GUILLAUME GRAND**

Dr. Jean-Guillaume Grand is a **specialist orthopedic surgeon** who was certified from the European College of Veterinary Surgery (ECVS) in 2012.

He obtained the title of Doctor of Veterinary Medicine (DVM) from the Faculty of Veterinary Medicine of Liège (Belgium) in 2004, where he also completed his residency. After two years as a surgical assistant at the National Veterinary School of Nantes (France), he completed a three-year surgical residency and obtained the title of **European Specialist in Surgery (DECVS)**, the highest level of expertise in the field. He then joined the University College of Dublin (Ireland) as an Assistant Professor of Surgery and was subsequently recruited to lead an orthopedic surgery department in the United Kingdom within Veterinary Specialist UK. In 2015, he joined the Aquivet Veterinary Hospital (France), leaving in 2024. In 2025, he founded a new referral activity dedicated solely to veterinary orthopedics, which he practices as an independent veterinary specialist.

Dr. Grand has a special interest in **traumatology, minimally invasive surgery, and the correction of bone deformities using 3-D printing**. He is a lecturer in several national and international orthopedic training programs.

# Online pre-courses lectures

**Early May 2027**

**2027-05-13 (4-5PM, Paris time)**

**Elbow** - Set-up, portals placements and joint exploration

**2027-05-20 (4-5PM, Paris time)**

**Shoulder** - Set-up, portals placements and joint exploration

**2027-05-27 (4-5PM, Paris time)**

**Stifle** - Set-up, portals placements and joint exploration

**June 2**

**14:00 to 17:00**

**Pre-course session on  
Virtual Reality Arthroscopy  
Simulators**

**(optional session and beginners only)**

**FREE**

8 PLACES  
AVAILABLE

*lunch non included*

This optional pre-course session is recommended for residents or practitioners with **little experience in arthroscopy** to concomitantly acquire visual and manual skills and gain transferable skills preparing to the wet lab on cadavers. An anatomical knee model with soft skin allows for physical manipulation of the knee joint. Trainees learn the **basics of knee arthroscopy**, perform complete diagnostic arthroscopies, and **carry out smaller surgical interventions on virtual patients** with different pathologies such as partial menisectomies. Objective feedback reports provide learners with essential information on how well they performed the procedure and which aspects to focus on next time.

**This pre-course session is free of charge but with a limited number of seats.**

# Get **BETTER** with **JEAN- GUILLAUME GRAND**

Learn advanced principles of canine arthroscopy through on line pre-courses and two site days filled with 8 hours of hands-on training in the wet lab on cadavers. Surgeons typically work in groups of two.

## Day 1 arthroscopy.

**8:00** | Welcome & coffee

**8:30** | Introduction and course objectives

**8:45** | Lecture : The elbow

**9:45** | Wetlab : The elbow - Sub-total coronoidectomy and ulnar biceps tendon release

**12:30** | LUNCH

**13:30** | Lecture : The shoulder

**14:30** | Wetlab : The shoulder - OCD flap removal and biceps tenotomy

**17:00** | Warm up Day 1

**17:30** | End of Day 1

# Day 2 arthroscopy.

**8:00** | Welcome & coffee

**9:00** | Lecture : The stifle

**10:00** | Wetlab : The stifle - Meniscus palpation and partial menisectomy

**13:30** | LUNCH

**14:30** | Lecture : Clinical cases

**15:00** | Lecture : Avoiding complications in arthroscopy

**16:00** | Warm up Day 2

**16:30** | End of Day 2
